

# St. Laurence High School

Where Leadership Begins

Dear Dave,

I write this letter to provide my full recommendation of Country House Restaurant. In my six years working with Country House as St. Laurence's food service provider, we have developed an incredible partnership that has allowed for both their company and our school to grow together.

The customer service we receive from Country House is second to none. On a personal level, every Country House employee I have worked with has been cooperative, friendly and has put our best interest – including financially – above all. They have been great for our team to work with, and they have always been amazing with our students and faculty.

On a professional level, Country House is always looking out for ways that we can grow as a school – whether it was implementing a card-scanning payment program, or consistently providing us updated reports to ensure transparency. Their willingness to help cater our outside events has also been a huge benefit – whether the event is casual or formal, Country House has a multitude of options to fulfill our needs.

Above all, the food that Country House provides is excellent. While they go above and beyond from a customer service standpoint, it'd mean nothing without a quality product. The food is fresh and homemade, and you can tell that it stands out from your typical cafeteria offerings. Even though we are a high school, we serve more than just teenagers; however no matter who we are serving food to, we know that they will be satisfied when we are serving something from Country House.

Sincerely,

Joseph A. Martinez '99  
President, St. Laurence High School
